

# THE HAZEL GREEN HERALD.

VOLUME I.

HAZEL GREEN, WOLFE COUNTY, KY., WEDNESDAY, MARCH 18, 1885.

NUMBER 3.

## The Herald

Is the only paper published in Wolfe county, and circulates largely in the counties of Wolfe, Morgan, Powell, Menifee, Magoffin, Breathitt, Elliott, Estill and Floyd, the latter never being without a newspaper of any kind. THE HERALD is, therefore, the best advertising medium in Eastern Kentucky, and advertisers can reach more people by an advertisement in its columns than by any other means. Try it, and be convinced.

PUBLISHED EVERY WEDNESDAY MORNING.

SPENCER COOPER, Owner and Editor.

### THE

### COURIER-JOURNAL

FOR 1885.

An organ of Live Issues, Living Ideas and

Moral Forces, and an enemy of Monop-

olies, Oligarchism and the Spirit of

Subsidy, as Embodied in

THAT THIEVING TARIFF.

The Courier-Journal is the acknowledged

REPRESENTATIVE NEWSPAPER OF THE

SOUTH, IS DEMOCRATIC in Politics, and

first, last and all the time for a reduction

of the war taxes levied on the people by

the tariff now in force.

The Weekly Courier-Journal

is without a superior in the world as a great

family and political newspaper, and during

the year 1885 it will strive more zealously

and hopefully than ever to keep its readers

not neglecting, however, the infinite variety

of choice miscellany that causes it to be so

great a favorite in the family circle. The

return to power of the Democratic party

will make 1885 a year marked in the history

of the United States, and no family should

be without the Courier-Journal who desire

to keep thoroughly posted on passing events.

The Weekly Courier-Journal has the Largest

Circulation of any Newspaper

in America. If you are unacquainted with

it ask any subscriber to it as to its merits as

a great family and political newspaper. In

point of quality and quantity of interesting

reading matter it leads the newspaper press

of the United States. If money, industry

and enterprise can keep it so it will con-

tinue at the head of American journals. It

contains, each week, the most complete

summary of the news of the world, and its

editorial columns (HENRY WATKINSON,

editor-in-chief), are always able, strong and

brilliant. Among the SPECIAL FEATURES

are Telegraphic Specials from all the leading

points in the United States and Europe. Se-

## GEOLOGY OF SECTION

FROM NEAR CAMPTON, IN WOLFE

COUNTY.

To the Mouth of Troublesome Creek, in

Breathitt County.

[P. N. Moore, State Geological Survey.]

The first coal of the section, the equiv-

alent of coal No. 1 of the Greenup coun-

ty section, and of Ohio geological reports,

occurs from twenty to fifty feet above

the top of the conglomerate. It is first

opened near Campton, on Swift's Camp

creek, and also on Bear Pen branch of

Upper Devil creek. Its position, here,

is about twenty-five feet above the top

of the conglomerate. Its thickness is

from twenty-four to thirty inches. It is

a fat or caking coal, of very good quality,

especially the lower portion of it. In

this respect it differs from the No. 1 coal

further north, which is there a typical

dry-burning or furnace coal. It is the

famous Jackson and Dry Hill coal, with

which over half of the iron made in

Ohio is smelted. The per centage of sul-

phur present varies considerably, but is

usually low. It is seen at a number of

places along the river, holding an aver-

age thickness of thirty-inches. Below

the mouth of Frozen creek, near Mr.

Nathan Day's, is an old mine, now fallen

in, where the coal is said to be thirty-six

inches thick in some of the rooms. Be-

low the mouth of Holly creek, on the

Holland place, is an exposure where it

measured thirty-four inches; but this in-

cludes a shale parting of several inches

in thickness. On Frozen creek it is seen

at a number of places near the mouth,

usually about twenty-eight inches thick;

but above this stream it has not been

seen by the writer. A coal, which is

probably this one, is reported on the old

Cockle farm. It probably goes under

the river not far above. This coal is an

excellent blacksmith fuel, and would

doubtless make a firm, hard coke. Coal

of this quality is rare in this part of

the state, as the majority of the coals are

of the soft, free-burning, non-caking

character; and although this is thin, it will

doubtless eventually become valuable.

The following analyses by Dr. Peter

and Mr. Talbutt, show something of the

character of this coal in this region:

No. 1.....No. 2

Moisture.....3.74 4.50

Volatile combustible matter.....35.52 41.10

Fixed carbon.....52.64 49.22

Ash.....8.10 7.18

Total.....100.99 100.00

Coke.....60.74 56.40

Sulphur.....2.496 0.818

Specific gravity.....1.336 1.300

No. 1 is an average
